Climate Neutral with ClimatePartner: SOLPACK 4.0

Sustainability always takes the center stage of SOLPACK 4.0. Even during planing, care is taken to keep the conference's ecological footprint as small as possible. For the 4th time, we are making SOLPACK climate neutral with ClimatePartner. By specifying the route, we calculate how many emissions must be offset in order to make your journey climate-neutral.

This is how we support our current climate protection project: Forest Protection Project Santa Maria, Brazil
